

Juni Funds

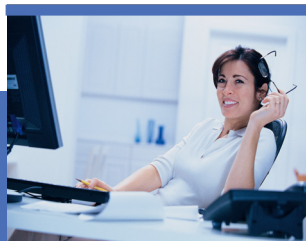

PAYMENTS HUB

OVERVIEW

JuniFunds is a real-time payments platform that combines all transaction processes including origination, review, reporting, administrative control and delivery, into a single platform. Offering a variety of modular payment types, this simplified and flexible application can be deployed with varying levels of sophistication and integration. From core processors and internet banking to direct connections to the Federal Reserve Bank, JuniFunds enables seamless processing flows for both inbound and outbound payments. Best of all, it helps you meet the diverse and growing needs of your clientele so you can build upon existing relationships and expand your market reach.
